Profile

Proactive, customer-orientated professional developer with over 8 years of experience in computer science. I focus my effort on creating high performance, low resource consumption, and cost-effective solutions tailored to each individual project. Specialized in web application development such as Ecommerce System, Customer Relationship Management System, Learning Management System, Enterprise App, Single Page Application, Health Care System, etc. I always provide professional and high-quality standards according to the clients' requirements. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.
